Love Children

By Karen Patota

Children have very simple needs. They need a warm place to sleep, some clothes to keep them warm, and good food to keep them healthy. They also without exception need to be loved.

Although the laws in this country do not protect the right of children to be born, A Baby's Breath has helped hundreds of mothers and fathers show love by offering real help for choosing life. For some parents, our pregnancy counseling services, parenting classes, and material support are the tiny glimmers of hope that they need for choosing life. For all of our mothers, fathers and families, they know that we are here because we care. For our volunteers, it is a testament of their Faith.

Ultimately, choosing life is a decision between a mother and God. We do the best we can to present the facts and then we pray. God is allowed in our organization and our services as it would not be if we accepted government money. We are totally dependent on private donations and grants. Your donations are a testament to your Faith.

We need to continue our vigilant support of candidates who support life, but also to continue our support of mothers and fathers in their brave decision to choose life.

Wecome!
